

Groby Juniors Football Club are proposing the installation of a new changing room, kitchen and toilet facility on Stamford Park. Their proposal also includes additional car parking spaces placed onto the park.

The building will be owned and managed by Groby Juniors Football Club and this will require Groby Parish Council to put in place a carefully considered long-term lease (i.e. in excess of 30 years) between the Parish Council and Groby Juniors for the area of land on Stamford Park where it is proposed the building is situated.

No decisions have been made in relation to this proposal and this public survey is the first step in the consultation process. Please read their proposal below and share your thoughts via our survey.

*Groby Juniors is a chartered standard community grassroots football club offering a fun, safe and friendly environment for up to 300 boys and girls between the ages of 4-18 and of differing abilities. These in turn are supported by 45+ volunteers and hundreds of parents and carers. Our junior teams play and train on Stamford Memorial park and whilst other Leicestershire villages have dedicated facilities, Groby has no facilities at all.*

*Our proposal is to create a small facility in a corner of Stamford Memorial Park to provide essential facilities. This will include changing rooms, kitchen and accessible toilets for all players and spectators, which is becoming particularly important due to the number of young girls who are joining the club. It would also provide storage for equipment, and the opportunity to generate additional revenue selling refreshments which would improve the sustainability of the club and help to ensure its future.*
